Biography

I am from San José, California, and I attended Bellarmine College Prep before continuing my education at the University of San Diego. During my time at San Diego, I gained extensive experience in football operations, spending four seasons as a Student Assistant and one season as a Football Operations Assistant. In these roles, I supported team logistics, administrative coordination, and day-to-day operations, building a strong foundation in how successful football programs operate behind the scenes.

In addition to my collegiate experience, I completed a Football Operations Training Camp Internship with the Kansas City Chiefs, where I gained hands-on exposure to professional team operations and the standards required at the NFL level. These experiences have strengthened my skills in organization, communication, and attention to detail, while fueling my passion for football operations.

I am an aspiring football operations professional, eager to continue developing my career in the field and contribute to programs that value efficiency, teamwork, and excellence.
